 IDENTIFIERS *Mount San Antonio College CA

ABSTRACT

A bibliography of sources on women and American history at the Mt. San Antonio College Library (Walnut, California) has been compiled. It has five sections: (1) general history (works reflecting the contributions of women as historians as well as portraying their roles in the history of the United States from the early colonial days to the present); (2) the West (works concerned with the visions of new lives of ordinary men and women who left the eastern cities to build their homes in the wilderness); (3) collected biographies of women both famous and obscure, which illustrate the general trends and directions of women's lives during particular eras in our history; (4) suffrage and feminism (works on the history of the feminist movement from the early suffragettes to the view of equal rights that is still pursued today); (5) work and employment (selections illustrating women's effect on the work force and the economy of the country and employment's effect on the women and their families.) WOMEN'S AMERICA: REFOCUSING THE PAST

The history of the United States that we learn in school, read in the newspapers, or see on TV, is the history of the nation - its policies and programs, its wars and treaties, its interactions with other nations. Women's history is the history of America, the history of its people. Women's history speaks of the impact of these events on the lives of the people-on their hopes and dreams, their values, and the struggle for existence. In honor of National Women's History Week, our Reference Librarian, Catharine Beamer, has searched the shelves of the Mt. San Antonio College Library to develop this bibliography of women and American history. It has five sections: General History, The West, Collected Biographies, Suffrage and Feminism, and Work and Employment.

GENERAL HISTORY: The works listed reflect the contributions of women as historians as well as portraying their role in the history of our country from the early colonial days to the present.

THE WEST: The pioneers and homesteaders who left the eastern cities to build their homes in the wilderness were only ordinary men and women with a vision of a new life.

COLLECTED BIOGRAPHIES: These biographies of individual women, both the famous and the obscure, illustrate through their triumphs and tribulations the general trends and directions of women's lives during the particular eras in our history.

SUFFRAGE AND FEMINISM: The ideas generated by the early suffragettes followed a rough and stormy path to the view of equal rights we still pursue today.

WORK AND EMPLOYMENT: "Women have worked, constantly, continuously, always and everywhere ..." (Shelia Lewanhak, 1980). These selections illustrate women's effect on the work force and the economy of the country and employment's effect on the women and their families.

Ignorance of women's accomplishments and their contributions to our nation's history leads us to dismiss and ignore their impact on our world today. Finding no role models in history, today's young women doubt their ability to influence public policy, to play a significant role in government, or to have impact on the world in which they live.

The purpose of this bibliography is not only to show women's view of history, but also to present role models whose accomplishments and contributions can be an inspiration for all of us.

Sandra L. Starkey
